DESCRIPTION OF INTENSIVE SENIOR RESEARCH REQUIREMENTS		
<p>One term of intensive original research during the senior year under the sponsorship of a Yale faculty member. Similar to other research courses except that a more substantial portion of a student's time and effort should be spent on the research project (a minimum of twenty hours per week). To register, the student must submit a written plan of study approved by the faculty instructor to the director of undergraduate studies. Students should attach a two-page proposal of the planned research. This should include an introduction covering why this research is interesting and important and an outline of the research methodology to be used. Students are encouraged to apply during the preceding term. Proposals must be submitted no later than the first day of the second week in the term in which the student enrolls in the Intensive Senior Research. The final paper is due in the hands of the director of undergraduate studies by the last day of reading period in the term of enrollment. Please attach this form to your proposal and return to the DUS Office. One term of intensive research fulfills a portion of the senior requirement for the B.S. degree.</p>		
TO THE RESEARCH MENTOR		
<p>By signing this form, you agree to supervise the student's project. You also agree to grade the final paper and report a grade to the EEB DUS based on exam(s) or term paper. This should be reported no later than the last day of the final examination period. Notification by email is acceptable and preferred to the EEB director of undergraduate studies: Marta.Wells@yale.edu (or her assistant, the EEB Registrar: deanna.brunson@yale.edu).</p>
